

Information for Anglers Holding a Tourist State Fishing Licence

We would like to inform our fellow anglers that our Association has consulted with MOHOSZ regarding fishing at the Kádárta Dolomite Quarry Lake by anglers holding a Tourist State Fishing Licence, as well as the types of local fishing permits that may be sold to them.

According to MOHOSZ's official position, anglers holding a Tourist State Fishing Licence may only purchase a local fishing permit that allows fish to be retained. The price of this permit is 20% higher than the price of the standard local fishing permit. Following these consultations, the relevant local fishing permits for the Kádárta Dolomite Quarry Lake have also been successfully configured accordingly in the HORINFO system.

From 17 August 2026, only the following types of permits are available to visiting anglers holding a Tourist State Fishing Licence:

- Adult Tourist Day Permit: HUF 9,600
- Adult Tourist Night Permit: HUF 9,600
- Youth Tourist Day Permit: HUF 4,800
- Youth Tourist Night Permit: HUF 4,800

Please note that a sport fishing permit (catch-and-release permit) cannot be purchased with a Tourist State Fishing Licence. Therefore, anglers holding this type of state fishing licence may only choose from the tourist local fishing permits listed above.

We kindly ask all anglers visiting our lake to check the type of state fishing licence they hold before purchasing a permit and to select the appropriate local fishing permit accordingly.

Thank you for your understanding and cooperation!

The Board of the Association
